Grammar with Fun

A Book of Grammar & Composition

Preface

Grammar is the base of any language. A thorough knowledge of grammar is essential for proper reading, writing and understanding of any language. However, it has been observed that in most cases, this important aspect is overlooked resulting in poor understanding of the language.

We feel immense pleasure in presenting **Grammar With Fun** a series of five books on English Grammar from Class I to V. The entire series has been prepared with a view to impart the first-hand knowledge of English language to the young learners who are just beginning to learn a new language. Grammar elements in each book have been graded appropriately for each level keeping in mind the intellect level of the learners.

The books have been written and designed to make the study of grammar an enjoyable experience. The main aim of the series is to teach the young learners the basic principles of functional grammar as well as their correct usage and also to train their mind to develop interest on the language. The colourful illustrations at proper places are an added attraction and would surely arouse interest in the language. Sufficient examples having a close bearing on the daily life and environment of a child have been provided at the beginning of each chapter to enable the learners understand the usage.

We sincerely believe that each book, taken in continuity with other volumes of the series will help the young learners to achieve their cherished desire i.e. the ability to write and speak excellent English fluently and effortlessly.

Suggestions, if any, for the development of the series will always be gratefully acknowledged and, if needed, incorporated in our future editions.
